International FoodFest Area

International Foodfest, another new feature in 2013, will compliment our line up of gourmet food artisans exhibiting in the show. It will include a delightful selection of cultural foods. Guests will want to sample the many offerings while strolling around the park.

Iron Art

Robert Aucoin, owner of Iron Art, is formally trained in both graphic design & fine art. He combines his artistic talents with his love for structural design & welding to create innovative design and art pieces at the Iron Art studio since 1993. The workshop is located on the north shore of Loughborough Lake just outside of Kingston, Ontario.

Robert remains closely connected to the art community creating one of a kind pieces presented in Art Guilds & Galleries. His vast international clientele includes Roots Canada & Soho, N.Y., architects, artists, interior designers, and individuals. Whether producing one of a kind furniture, gorgeous entrance gates, decorative home decor art pieces or his latest passion belt buckles with exotic patinas, Robert's skills in design and craftsmanship are outstanding. The new line of original, hand forged, stainless steel, hypo-allergenic buckles will be featured at Artfest Kingston. They compliment jeans, suits and casual wear and began when Robert's own children were finding it hard to find unique belt buckles for their jeans. Since that first buckle, hundreds of buckles in many different styles have been designed. Each buckle is a signed original and includes a Certificate of Authenticity.
